

# FALLON RANGE TRAINING COMPLEX ENVIRONMENTAL IMPACT STATEMENT

## NATURAL RESOURCES AND PROTECTIVE MEASURES

The Navy recognizes the Fallon Range Training Complex is part of a diverse and functioning region, and is committed to protecting the environment while conducting military readiness activities.

The Fallon Range Training Complex provides important habitat for many species. The Navy manages the natural resources on its lands to identify, avoid and minimize potential effects from training.

No federally listed endangered or threatened wildlife species permanently or seasonally reside in the Fallon Range Training Complex.

### INTEGRATED NATURAL RESOURCES MANAGEMENT PLAN

- ▶ Long-term plan that guides natural resources management on military installations
- ▶ Developed in partnership with other agencies
- ▶ Goals:
  - Sustainability of species and habitats
  - Balance between military training and natural resources management
  - No net loss of military capabilities
